

# BENDANT Lamp

**IMPORTANT:** Follow instructions carefully! Save instructions for future reference.  
Printable instructions available online at: [www.mioculture.com/lighting/bendant-lamp.html](http://www.mioculture.com/lighting/bendant-lamp.html)

## Handling + Assembly

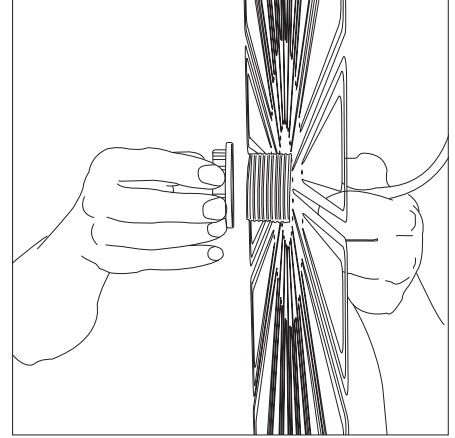

**\*\*RECOMMENDED LIGHT BULB: COMPACT FLUORESCENT GLOBE 20W / 120V\*\***

Always handle lamp from the central cut out.

Install lamp-holder securely. Consult your local hardware store for most appropriate installation method. Insert lamp shade into lamp-holder.

Screw plastic ring into lamp-holder to fasten the shade.

## Shade Bending + Adjustment

Bend outer shades first by gently pushing each shade with your thumb in the desired direction.

It is recommended that shade compositions be made symmetrical to keep the lamp in balance.

Keep bending outer shades until they are all in the desired position.

To bend inner shades, push or pull on the selected shade while holding the corresponding outer shade in place.

To avoid breaking the lamp shades do not re-bend or re-adjust them more than five times.

Voila!
